Engage and connect with the future of engineering...

WHY PARTNER WITH US?

Build your employer brand with us

Reputation is everything when it comes to attracting the brightest engineers of tomorrow. Your employer brand on how students perceive your company plays a decisive role in whether future engineers see your organization as a place to start their careers.

A strong employer brand communicates your company's purpose, values, and technical culture. It helps you connect with ambitious engineering students who are eager to solve realworld challenges and contribute to innovation in your industry.

Reach future innovators early

When students search for internships or their first full-time role, a clear and engaging employer brand can make the difference between being overlooked and being chosen. For many, campus exposure is the very first step to discovering your organization. This is your chance to showcase your projects, technologies, and culture directly to students who are passionate about creating impact through engineering.

Why collaborate with HI TECH?

HI TECH is the student association of Jönköping University's School of Engineering. By partnering with us, your company gains direct access to a diverse, international pool of students specializing in areas such as digital product development, industrial engineering, computer science, cybersecurity, sustainable technology, design, and much more. These are the engineers and innovators who will shape tomorrow's industries.

Through HI TECH, you can build awareness of your brand on campus via digital outreach and live events. As a partner or sponsor, you'll be able to engage with students through:

1. Guest lectures & tech talks
2. Networking sessions & career fairs
3. On-campus showcases and interactive demos

Let's work together to create valuable connections and inspire the next generation of engineers!!!

ABOUT US

Our History

Just over 30 years ago the trams were removed from the streets of Jönköping while a group of students walked along those streets preparing to change the School of Engineering forever. The year was 1986 when Top Gun was released in theatres, Swedish cows were allowed outside again for the first time since the Chernobyl accident, and the foundations of our student association were started.

Initially, HI TECH mainly arranged social gatherings, but it allowed for the development we know today. Now, we have around 2,500 of which 150 students are involved in any of our five committees, with 12 members holding a unique position on the HI TECH Board.

Our Mission

The HI TECH student association works all year in the interests of its members at JTH. Involvement happens in all areas from education over inclusion to social life. For this matter the association is divided in committees and work groups overseen by and represented in the Board of HI TECH, to deal with all aspects of the HI TECH agenda including countless projects and events.

Our Structure

The board of HI TECH consists of four committees and three workgroups, working together to cover everything from academics to social life and student representation.

HI TECH COMMITTEES

HI LIFE

HI LIFE is HI TECH's 'festmästeri', also known as the sexmästeri. It is HI LIFE's job to bring the students at JTH together, ensuring they have as much fun as possible outside of their studies. They plan and arrange the autumn and spring kick-off events, and also organise other events during the year.

HIKE works with the social aspect of studying, ensuring that the time you spend studying is brimming with fun activities. With HIKE, you can go on a ski trip or join for a spring/autumn get-away. HIKE also arranges dodgeball tournaments, the HIKE-mile, and other events during the year.

HI EDUCATION is HI TECH's educational committee, and it serves as a voice for the students in order to improve educational quality. They develop educational programs, ensure that all staff adhere to high standards, and supervise the course developers chosen for each class.

HINT work actively to help the international and the Swedish students to integrate and to ensure that everybody feels welcome. HINT arranges a variety of events, such as waffle night, pub crawls and an event called "HINT ON THE RUN." They also take care of exchange students in kickoffs.

HI TECH WORK GROUPS

HI TECH AFFAIRS

HI TECH AFFAIRS primary responsibility of is to maintain ties with the sponsors which includes forming new partnerships with external companies and associations. HI TECH Affairs also handles, in collaboration with the School of Engineering, the organization of Karriärum and Xjobbsmässan.

HI TECH EVENT

HI TECH EVENT the associations own work group, appointed by the Board to organize all main recurring events throughout the year. HI TECH EVENT is responsible for organizing Welcome dinner during the fall kick-off, HI TECH's annual GALA, Engineers Dinner, Graduation day & the Graduation banquet.

HI TECH SOCIAL

HI TECH SOCIAL is responsible for managing HI TECH's social media accounts. They design and publish all the posts, handle the messages and questions sent to the DMs, and support the board and committees with graphic materials. In addition to their regular duties, HI TECH SOCIAL is also available for photographing events, taking group pictures of the board, committees, and workgroups, as well as creating graphical content for other social media channels.

OVERVIEW OF OUR PROJECTS

CAREER PROJECTS

Karriärum

Karriärum is JTH's largest annual business fair, attracting 130 exhibitors and 1,500 visitors. It's a key meeting point where students secure internships and degree projects while companies connect with future talent.

Xjobbsmässan

Xjobbsmässan is JTH's degree project fair, where students present their work to companies and organizations. It's a platform for businesses to discover new talent, gain fresh ideas, and connect with future engineers.

SOCIAL PROJECTS

The Fall Gala

The Fall Gala is HI TECH's largest annual event, bringing 300 JTH students together for a gala dinner, entertainment, and celebration. Sponsors gain visibility through logos, on-site presence, and stage opportunities, plus two tickets to the event.

Engineer's Dinner

The Engineer's Dinner is a formal student event at Akademien with around 120 participants, featuring a 3-course dinner and entertainment. Sponsors can engage with students in an exclusive setting, though marketing is restricted for companies competing with Akademien.

Graduation Banquet

The Graduation Banquet gathers 200–300 graduating students for an evening of dinner, entertainment, and an award ceremony. Sponsors can host a booth during the mingle, present on stage, and receive two tickets for company representatives.

Karriärum

Karriärum is the annual business day of the School of Engineering (JTH), held every November, and it has grown to become the largest fair of its kind at Jönköping University. The event brings together around 130 exhibitors and over 1,500 visitors, creating a vibrant meeting point between students, companies, and organizations.

For students, Karriärum is an important opportunity to apply for internships (IPC), degree projects, and even future full-time positions.

For companies, it is a chance to connect with ambitious engineering students who bring fresh ideas, creativity, and technical expertise. Beyond recruitment, the fair also allows businesses to strengthen their employer brand on campus and gain valuable insights into the next generation of engineers.

Xjobbsmässan is the annual degree project fair of the School of Engineering (JTH) at Jönköping University, where graduating students present the results of their final projects.

For companies and organizations, it is a unique opportunity to meet talented students, discover innovative solutions in technology and development, and gain inspiration for future challenges. Many businesses use the fair to identify potential employees, recruit for open positions, or explore new areas of collaboration with students who bring fresh perspectives and creativity.

At the same time, students gain valuable exposure, build networks with industry representatives, and demonstrate the skills they have developed throughout their education.

X JOBBSMÄSSAN

FALL GALA

HI TECH's biggest event is a annual gala held in the fall where 300 students from JTH gather at Elite Stora Hotel for an evening filled with entertainment, a three-course dinner, and a party.

Sponsors have the opportunity to gain visibility and interact with participants, for example, through a booth during the mingle before the gala or by going on stage to present their company. Each sponsor receives two tickets, which means two representatives can attend the entire gala and enjoy both the dinner and the party.

The sponsor's logo can be displayed on the photo wall, the backdrop on stage, as well as on all graphic materials used in the event's marketing, providing high visibility both before and during the gala.

This is a unique opportunity for companies to engage with the talents of the future and be associated with a prestigious and well-attended event.

ENGINEER'S DINNER

The Engineer's Dinner is a traditional formal banquet held at the student club Akademien, gathering around 120 participants for an exclusive and memorable evening. The event features entertainment and a carefully composed three-course dinner, creating a festive and social atmosphere where participants can mingle, network, and enjoy the night in good company.

The event is designed to offer a unique, high-quality experience, where both the food and entertainment contribute to an elegant and unforgettable evening.

For companies wishing to get involved, certain restrictions apply: no marketing is permitted from businesses that compete with Akademien, ensuring that the evening's focus remains on the participants' experience and the club's traditions.

This makes the Engineer's Dinner an exclusive opportunity for companies to gain visibility and be associated with a respected and prestigious student tradition, while honoring the club's rules and the integrity of the event.

GRADUATION BANQUET

The Graduation Banquet is a formal event for all students who are graduating and typically gathers between 200 and 300 participants. The evening features entertainment, a three-course dinner, and an awards ceremony for students who have been nominated by their friends in various categories, creating a festive and memorable atmosphere.

Just like at the HI TECH Gala, there are opportunities for sponsors to participate actively in the event. During the pre-banquet mingle, sponsors can be offered their own booth where they can

showcase their companies and network with the attendees. Additionally, there is an opportunity to go on stage to present the company and engage directly with the audience.

Each sponsor receives two tickets, allowing two representatives to attend the entire evening and enjoy the mingle, dinner, and entertainment. The sponsor's presence provides an opportunity to be visible and interact with future talent in a prestigious and appreciated setting, while also contributing to an evening full of celebration.
