Profile Summary

Creative and versatile UI/UX Designer, Graphic Designer, and Web Developer with a strong eye for detail and user-focused design. Skilled in crafting intuitive interfaces, responsive websites, and impactful visual content. Proficient in design tools like Figma and Adobe Suite, along with front-end technologies such as HTML, CSS, and JavaScript. Passionate about blending aesthetics with functionality to deliver seamless digital experiences. Proven ability to work collaboratively with cross-functional teams and deliver creative solutions that meet client requirements.

Project

Fitness Website Application (UI/UX Designing + Frontend Development)

- Designed a multi-screen fitness web application prototype using Figma, focusing on user goals and personalized workout planning.
- Developed interactive wireframes for goal selection, workout scheduling, and user profile management.
- Collaborated with teammates in early-stage design thinking workshops to define user personas, goals, and wireframes.
- Translated high-fidelity mock-ups into a fully functional website using HTML, CSS, and JavaScript, ensuring mobile responsiveness and accessibility.
- Continuously iterated based on peer feedback and usability testing to refine both design and functionality.

Skillset

- **UI/UX Design** – Skilled in crafting user-centered interfaces and seamless experiences using tools like Figma, sketch, and Miro.
- **Graphic Design** – Proficient in creating visually engaging assets, branding, and layouts using Adobe Illustrator, InDesign, Photoshop, and Firefly.
- **Web Development** – Capable of building responsive and interactive websites using HTML, CSS, and JavaScript.
- **Design Thinking** – Experienced in applying design thinking methodologies to identify user needs and solve problems creatively.
- **Responsive Design** – Adept at designing and coding websites that adapt smoothly to various screen sizes and devices.
- **Collaboration & Communication** – Comfortable working in team settings, sharing feedback, and contributing to creative brainstorming sessions.
- **AI Tools Integration** – Familiar with using AI tools like Google Stitch (UI/UX), Midjourney, Krea, and Visme (Graphic Design) to enhance creativity and productivity.

Education

Graphic designing and web development

2024- Present

Jönköping University

I am currently studying Graphic designing and web development in Jönköping university. So far I have learnt many new things in the specific field like utilizing various Adobe tools, learnt about human computer interaction. I have gained hands-on experience implementing different front-end programming languages (HTML, CSS, and JavaScript) and UI/UX design using Figma, and Miro. Not just that, but I have also explored and learned about business planning and entrepreneurship throughout my journey at university.
